NATIONAL FEDERATION

Annual report 2025

The year in numbers, our finances and what comes next

Sample document for a demonstration website. National Federation is not a real organisation.

A year of growth

Registered members rose to more than 48,000 across 620 affiliated clubs. Mat sports grew fastest, with three new judo and wrestling clubs and the first national jiu-jitsu open on the competition platform.

Where the money went

Of every pound we spent, 41p went to clubs and participation, 27p to coaching and officiating, 22p to the performance pathway and 10p to running the federation.

Inclusion

Boccia, Special Olympics and deaf sport programmes reached 3,400 athletes, and concession memberships doubled.

Looking ahead

In 2026 we will open online entries for every national championship and publish live rankings for all of our sports.
